

## Discover the **Inclusive** and **Welcoming** Places in Your Community and Around BC

**myCommunity BC** is a tool for people to share and celebrate the gifts and assets in their community with the goal of building more connected and inclusive communities for all.

**Get started now for FREE!** Explore a community near you or suggest an inclusive and welcoming place in your community.

### **How myCommunity BC works**

Together we map places and resources that are inclusive, value diversity, and are welcoming of everyone.

**myCommunity BC is an online map designed for you to:**

1. discover inclusive places and opportunities in your community
2. add to and recommend inclusive places and opportunities in your community
3. create and add to your own personal map

The more people add to and recommend places, the more there will be to explore on the map.

### **What gets mapped?\***

We are interested in mapping family friendly places and opportunities in your community that fit the following myCommunity BC criteria:

An **INCLUSIVE** community place is welcoming and respectful of all people, accessible, safe, culturally sensitive, and provides opportunity for social connection.

 **This is the icon some communities are using to represent an inclusive place that is welcoming of diversity**

\*myCommunity BC is a family friendly map. It is based on people's experiences of the places and spaces in their community. Not every place will be for every person. All suggested places are subject to approval.
