### *Child(ren)'s Description:*

We have three children, the eldest has a disability. He specializes in autism, has mild CP, a well controlled seizure disorder, and visual cortical blindness, which he hides very well. He is developing a dog walking business and is a pleasant fun guy to be around.

One of the girls is an infant development specialist with North Shore and the other is an RN in Victoria and put herself through nursing supporting people in groups homes for a Victoria based agency.

### *Child's Current Life Activities:*

They are all adults. The girls do not live at home, our son lives at home part of each week and with a close friend the rest of the week. They are all very active, both girls run and cycle, our son loves to hike and is an avid skier. He is also an avid music lover.

### *Spouse/Partner Information (optional):*

Bruce is retired from public relations although still volunteers weekly and also supports a man with diversabilities who is in his 40s. Bruce is an extreme mountain biker, road cyclist and enjoys wilderness kayaking.

### *Community Related Experience or Knowledge:*

I work in the sector and have been a senior volunteer both locally and provincially.

### *Experience With Tests/Assessments and Professionals:*

In the earlier years we had OT, Speech, PT, and a the continuous round of assessments and appointments.

### *Anything Else You Would Like To Share:*

This diverse family experience has enhanced my life and the lives of our family, friends and community. Quite a growth experience for which I am grateful. And although I enjoyed all stages of family hood, I must say I am happy to be in the 'adult child' stage now!!

|---------------------------|--------------------|-----------------|
| Cameron                   | 12/18/1992         |                 |
| Mitchell                  | 8/28/1994          |                 |

### *Child(ren)'s Description:*

Cameron, soon to be 13, has just started Grade 8 - high school!!!! Mom's not ready for this. He is a great kid - very level headed, and an awesome big brother to Mitchell. Cameron is kind, gentle, and good with all kids. He is very active in basketball, ball hockey, volleyball and swimming.

### *Child's Current Life Activities:*

Mitchell (11) has just started grade 5 and is fully included in his neighbourhood school and community. He enjoys horseback riding once a week and swimming (being with his peers). Mitchell has the greatest disposition and is a very happy fellow who loves to laugh.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

Starting second year as DPAC Chair for School District #42; SPC member - Alouette Elementary; RMACL - Family Advisory / Supported Child Care / Parent Support Group; SD #42 Inclusive Ed Advisor; SD #42 District Education Advisor; and Ridge Meadows EDC Committee.

### *Experience With Tests/Assessments and Professionals:*

### *Anything Else You Would Like To Share:*

As much as I sometimes get "meeting overload", I still enjoy my involvement and the knowledge that I have gained over the years.

☐ Phone - Home ☐ Email  
*Preferred method of contact - Other:* ☐ SMS/Text

### *Child(ren)'s Names*

Pascal Belanger

### *Birth Dates*

6/18/1995

### *Comments*

### *Child(ren)'s Description:*

Pascal is a bright, creative, sensitive individual who has a great sense of humour and a "gift for the gab". His greatest challenges lie in having to "fit in" to the education system having been diagnosed with ADHD and learning disabilities. He struggles with written language arts, math, organization, concentration, etc. He does not like to be "labeled" and refuses class room supports and accommodations and does not like to ask for help. (This is a challenge for teachers and mom and dad and continues to be something we are "working on" together). In the areas/subjects that he is strong in, he does not apply himself giving the excuse that he doesn't care. His states that his refusal for support now is mainly because he was "pulled" from the classroom (in Elementary School) several times in a week which resulted in him being teased by his classmates and referred to as "stupid". He does not want to be "singled out" in school in any way.

### *Child's Current Life Activities:*

Pascal is musical and theatrical. He has performed in community theatre and recently performed in a lead role in the musical production of "Oliver". He also has a strong singing voice and loves to perform. He has a passion for downhill skiing and recently joined the Free Style Ski Team - unfortunately, he broke his elbow which has resulted in the end of this year's season. Prior to this, he was involved for several years in Tae Kwon Do which he finally gave up to pursue his skiing. Pascal also enjoys bike-riding, skateboarding, camping and travelling, "road trips" with mom, computers, and our animals - 2 dogs, 3 cats, and a pet rat!

### *Spouse/Partner Information (optional):*

I am a single parent. His dad is very involved but does work shift work and often evenings therefore Pascal lives with me full-time. The relationship between his father and I is mostly amicable, although there are issues around his father's drug addiction to marijuana.

### *Community Related Experience or Knowledge:*

### *Child(ren)'s Description:*

Ethan was diagnosed with Autism at age 4. He also has speech/language and anxiety issues as well as a paracentric inversion of chromosome 8 and a mild Chiari I malformation.

### *Child's Current Life Activities:*

Ethan has attended private schools since 2nd grade and has had part-time aides. He has been on the regular curriculum for K-9. He is currently in Grade 10 and has found it very difficult with provincials. He has now been put on a modified/adaptive program, He also receives 1-1 Math from a specialist who comes to the school.

Ethan does not do any extracurricular activities but likes to volunteer. He currently volunteers weekly at the Port Moody Food Bank.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

Home-based ABA programs

### *Experience With Tests/Assessments and Professionals:*

We have had a whole range of testing done on Ethan including genetics. We have done the psycho-educational assessments twice both privately.

### *Anything Else You Would Like To Share:*

Sept 4/15 - Cell phone is the preferred way of contact.

We ran a home-based ABA program from ages 4 -8.

We relocated our family to Florida for 6 years and navigated thru many transitions and setting up services for Ethan in the US. Ethan is now 16 and we are going thru the transitions to adulthood.

|---------------------|-----------|--|

### *Child(ren)'s Description:*

Liz is a lovely, bright, and mature teenager. Nick is clever, charming, and desperately wants to be "one of the guys". Dealing with autism and bullying. Duncan is talented, and a sweet, gentle soul, who is very protective of his older brother.

### *Child's Current Life Activities:*

Fully integrated.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

I have been on the Infant Development Advisory board, Here to Help group, and parent support groups.

### *Experience With Tests/Assessments and Professionals:*

Useful to get a diagnosis.

### *Anything Else You Would Like To Share:*

I could write a book about what my children and I have gone through in the past two years, but it would be dismissed as a work of fiction. I now can add to my list of life experiences, as related to my child: helping a child with a disability cope with marital breakup and betrayal. There are no counselling services available for children with disabilities in a small town.

### *Child(ren)'s Names*

### *Birth Dates*

### *Comments*

Ellia Belson (Mom)

Ranu Belson (Dad)

Liam Belson (son)

3/9/1996

High functioning autism

### *Child(ren)'s Description:*

Liam is a well integrated boy with high functioning autism. He goes to a private high school and is in grade 12. He enjoys reading sci-fi and magic card games.

### *Child's Current Life Activities:*

Liam is active in the community, he will graduate this year. He has independent friendships, is learning how to drive and hopes to attend university.

### *Spouse/Partner Information (optional):*

Rami and I work well together in our own company developing energy management solutions.  
(www.energexinc.com)

### *Community Related Experience or Knowledge:*

We (Rami and I) serve on our school boards, PAC members, as well, I used to be a teacher before the business.

### *Experience With Tests/Assessments and Professionals:*

Experience coordinating Liam's service providers and I have personally trained as a Behaviour Interventionist (BI)

### *Anything Else You Would Like To Share:*

I think I would have lots of insights for families who have questions - for kids between 0 - 17. As well as being a former teacher, have worked as a BI in Delta. I have worked with CBI, Laurel group, O.T.s, hearing clinics, SLPs, auditory processing clinics, managed psycho-ed assessments both privately and with Sunnyhill. Throughout the time I have come to be quite knowledgeable about concepts such as: sensory integration, auditory processing, working memory, sequencing, visual aids and scheduling aids, transitions, reward schedules and more. I also attended a workshop on Asperger's syndrome given by Tony Attwood.

| Dalton                    | 5/17/1994          |                 |

### *Child(ren)'s Description:*

Denniqua is mature, helpful, and cares about her brother a lot. Dalton, who is diagnosed with Autism, is very attached to his sister. He is delayed in his speech, both expressively and receptively -- developmental apraxia (difficulty articulating).

### *Child's Current Life Activities:*

Dalton has attended LEAP (integrated special needs preschool for children with autism) for two years. He is presently integrated into afternoon Kindergarten. Dalton has ABA therapy sessions at home 4 mornings a week, 4 sessions after school per week, and 6 hours on Saturday.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

Peggy has organized a rally in Victoria re CPR and SCC, met several Ministry of Children & Family ADM's and Liberal caucus members and attended question and answer period. She organized a rally in Delta for the same. Peggy met with South Fraser RED and other Regional Ministry of Children & Family reps regarding ABA. She has had numerous interviews with media regarding lobbying and advocacy. Peggy has lobbied local charities for funds to support her son's ABA program. Peggy has done several presentations on Autism and ABA.

### *Experience With Tests/Assessments and Professionals:*

Dalton had psychological tests at Sunny Hill which were useful. He had EEG's twice and ABR. Both were very traumatic for Dalton and for Peggy.

| Skylar                    | 5/6/1997           | Female          |

### *Child(ren)'s Description:*

Jesse - 6 yrs. Started kindergarten, very happy, very mischievous, loves outdoors and exploring, school and riding the bus. Skylar – 4 yrs. Pre-school, a little mother to Jesse, loves horses and is going to start barrel racing at the Gymkna's.

### *Child's Current Life Activities:*

Jesse is integrated into the kindergarten class. There are times throughout the day he does some work in another classroom. Sensory exercises are done by himself in the gym. Aide, Aboriginal aide and a Grade 7 student work together.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

### *Experience With Tests/Assessments and Professionals:*

Psychological tests (Sunny Hill) – extremely helpful. Medical tests (Children's Hospital Specialist) – Very helpful.

### *Anything Else You Would Like To Share:*

I am a very positive person and very team oriented. I believe parents need to have a stronger voice for their children and they need support in doing this (this and the school, medical & ministry level). Jim and I compete in the rodeos. I barrel race and Jim competes in steer wrestling and team roping. We train our own horses, along with client horses. Our (including our children's) lives revolve around our horses.

### *Child(ren)'s Names*

Theo

### *Birth Dates*

2/27/1985

### *Comments*

Passed away on 2013 02 09

### *Child(ren)'s Description:*

Theo is a gentle, peaceful old soul who loves music and magazines, especially National Geographics. He's a great non-judgemental listener and driving companion. Like most people with Angelman's Syndrome, Theo's biggest challenge is his seizure control.

### *Child's Current Life Activities:*

When Theo turned 19, he moved into a group home in town operated by our local ACL, which he shares with 3 other guys, one of whom he knew in school. With all the ministry cutbacks, his day program is not as rich as we would like. We did manage to get some extra funding for him to swim twice a week - a highlight for him - he loves the water - and we're currently working on getting him back to riding once a week. Looks like he may start in mid September. I will be getting out my advocacy hat again for more improvements. He comes home most weekends, and we drop into his home whenever we go to town, about 15 minutes away. He seems happy there and transitions back and forth easily. WHEW!

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

Back on the board of Cowichan Valley ACL, previous FSI and CVACL board member (10 years combined), several committees, past life as ECE teacher, Teacher Assistant, and Advocacy coordinator for CVILRC, and professional potter for 20 something years.

### *Experience With Tests/Assessments and Professionals:*

Useful for therapy and funding but dependant on day and circumstance. Remember you know your child the best. There are some wonderful, committed people in the field, with a wealth of experience and knowledge to share. Use them.

---

After the guilt and grief I experienced when Theo moved to a group home, I am starting to rediscover my old self (though my poor old body isn't as resilient as it once was)! My husband and I now hike most mornings before we head off to our studios for the day, and we managed to fit in a 2 month adventure in India last winter. In fact we liked it so much we are going back this winter for another 2 months! WOW! There is life after kids! Thank you to all the fine FSI folks for always being there for me and for all our families. Hang in there guys.

Liisa

5/9/1970

Wendy

2/6/1987

Passed away on 02/26/2002

### **Child(ren)'s Description:**

Liisa loves her family and friends, shopping, long walks and drives.

### **Child's Current Life Activities:**

Liisa has a microboard which makes it possible for her to hire her own staff and plan her days.

### **Spouse/Partner Information (optional):**

### **Community Related Experience or Knowledge:**

Co-founder of FSI, Liiwensa Society for Inclusive Communities. Enjoys writing and has made numerous presentations at workshops and conferences.

### **Experience With Tests/Assessments and Professionals:**

Excellent support from seating at Queen Alexandra Centre for Children. We have had some excellent support for my children from PT/OT/ST/vision/nurse consultants/doctors and SET BC. Tell them your vision and don't take what doesn't work. Do your own research with other families before making a final decision.

### **Anything Else You Would Like To Share:**

My husband Robert is a significant support to Liisa and myself. He has supported many families in the past.

| Dillon                    | 7/12/2005          |                 |
| Elizabeth                 | 11/6/2007          |                 |

### *Child(ren)'s Description:*

Stuart is usually a happy, outgoing and a fun kind of kid to hang out with. When Stuart turned three he stopped speaking and was diagnosed as having ASD when he turned four. Stuart is quite amazing in how far he has come regarding social skills and communication but he continues to work on self-regulation and some behaviours. Stuart both inspires me and at the same time leaves me feeling drained.

### *Child's Current Life Activities:*

Stuart is very busy with school and out of school help. He also has respite twice a week, where he enjoys several activities such as walks to the duck pond and swimming. He also enjoys dance and is taking a hip hop class. Lizzy is very active, she enjoys arts and crafts and loves dance. Dillon is computer savvy and is often found playing video games. When the kids are not attending school, we are almost always out and about enjoying what our city has to offer, such as the aquarium, parks and hikes.

### *Spouse/Partner Information (optional):*

Separated

### *Community Related Experience or Knowledge:*

I am currently studying community counselling at VCC and volunteering as a family resource volunteer at a local family drop-in. I have been a family connector with South Vancouver Family Place and have served on their Board of Directors for years. I often help a couple of family support workers by meeting with parents who have children who are being or are diagnosed with developmental delays and share my knowledge of local resources. I also volunteer at my daughter's school with the fresh fruit and vegetable program. I have a Masters of Science degree and have experience in literature searches and understanding scientific articles.

### *Experience With Tests/Assessments and Professionals:*

*RP/RFM Status:* ACTIVE *RP or RFM Relation:* PARENT

*Address:* 20 - 7355 BLAKE STREET, VANCOUVER, BC V5S 3V6

*Home:* () 6042630467 *Region:* 1 GREATER  
*Work:* () 7788470467c VANCOUVER

*Fax:*

*Email:* cassy77@telus.net

Stuart had his assessment done at Sunny Hill. In the past our family has worked with Speech Language Pathologists from Vancouver Health, we had testing done at BC Children's hospital. We have used the services of a few behaviour consultants agencies. We are very successful (now) with dentist, family doctor and paediatrician visits. I have also used services from Centre for Ability and Developmental Disability Association. I am quite comfortable dealing with MCFD both autism funding and social workers. I am aware of a few local parent support groups. I have experience with IEP, school counsellors and dealing with the school board (VSB) regarding inclusion issues.

### *Anything Else You Would Like To Share:*

I am very passionate about helping and supporting families with young children and strongly value the role of the community in supporting families (it takes a village!). I feel that I am a strong advocate for my children.

| Child(ren)'s Names | Birth Dates | Comments      |
|--------------------|-------------|---------------|
| Michael David Wege | 12/20/1990  | step son      |
| Leigha Ann Mott    | 4/4/1991    | step daughter |
| Jesse James Crooks | 8/10/2004   | son           |

### Child(ren)'s Description:

My son, Jesse, was diagnosed at Children's with ADHD and a sensory disorder. Due to this he has limited food he can eat, smells he can tolerate and high anxiety. He is very outgoing with kids his age and makes friends easily. He loves to laugh and play in the mud.

Leigha is a very bright young adult who also has high anxiety and many fears. One big one is fear of groups of people her age.

Mike is a hard working young man that was taken out of school in grade 6. He has no formal testing or training but shows many signs of dyslexia.

### Child's Current Life Activities:

Jesse is in grade 1 and attends "My Gym" gymnastics. Leigha has gone back to school and works as a waitress. Mike works as a roofer.

### Spouse/Partner Information (optional):

Separated but very good friends.

### Community Related Experience or Knowledge:

Went to school for Community Support Worker. Employed at Ridge Meadows Association and MCSS.

### Experience With Tests/Assessments and Professionals:

I have been through many tests and specialists with both my parents and my son.

### Anything Else You Would Like To Share:

I am very knowledgeable in the medical field as I also took my transcription course, so going to a specialist, I can usually translate.

### *Comments*

2 boys (12 and 14 years old)

### *Child(ren)'s Description:*

I have two boys one is 12 and the other is 14. My fourteen year old has a learning disability which meant that we learned self advocacy in the school system. My 12 year old is gifted which also comes with it's own group of challenges. Being a single parent has meant several different things from learning how to cook on a budget to learning how to use football pads and a cup. I am very proud of my boys who understand the meaning of sharing and giving back to the community, and who know what it means to work hard for something and appreciate the value of good manners.

### *Child's Current Life Activities:*

Both my sons are part of the Air Cadets. My older son plays football at Terry Fox and my younger son plays basketball with Poco North. Both boys help with community events several times a year.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

I have been a youth leader for inter faith, as well as cultural activities for two years. I serve on both BPACS, as well the DPAC and the Cadet squadron.

### *Experience With Tests/Assessments and Professionals:*

My older son was tested for a learning disability which I prayed for privately. We have also taken communication classes as a family to learn how to communicate with teenagers.

### Comments

Stephen Drover

My husband

Jack Drover

2/7/2015

My son

### Child(ren)'s Description:

My son Jack was born needing life-saving surgery to the shock and surprise of both my husband and I. Since then he has had many surgeries and has a diagnosis of Vacterl Association and ASD. My husband and I are well versed in the rare disease world.

### Child's Current Life Activities:

Jack attends the Lynn Valley Parent Participation Preschool. He has therapy several times a week with a large team that assists him. He does music therapy as well as gymnastics and swimming. He is also very involved in the Children's Hospital community.

### Spouse/Partner Information (optional):

My husband Stephen is an artistic director of a local theatre company. He rides a motorcycle and loves mountain biking with our son. He is a wonderful, supportive, upbeat father and husband.

### Community Related Experience or Knowledge:

I am a parent speaker for the BC Children's Hospital Foundation as well as the Rare Disease Foundation. I sit on the Micro Grant Research Granting Committee as well as the Provincial Organization for PPP Preschools. I am an actor by trade.

### Experience With Tests/Assessments and Professionals:

Sunny Hill, PARC team, Alan Cashmore Centre.

### Anything Else You Would Like To Share:

I can share all things medical, therapy related or early intervention.

| Steven Glenn              | 2/19/1982          |                 |
| Kelly Glenn               | 5/10/1984          |                 |

### *Child(ren)'s Description:*

Steven is a cheerful, caring young man who enjoys music, animals and teasing his family. Steven communicates through about a dozen of his own modified signs, a few words (Hi, Bi, ya, na) and a picture communication book. Steven left home and moved in with two wonderful ladies about a year ago. He loves his new bedroom and enjoys living with Shari and Lorah. They have two dogs which is a real treat for Steven. Steven comes home to visit two weekends a month and calls us a couple a times a week. Steven fills his days by volunteering at the food bank, walking dogs at the SPCA, riding horses weekly, attending drumming and dancing classes, swimming regularly, etc.

Kelly is a not as grumpy as she used to be and is now a young adult. She is currently going to college and doing very well. Now if she would only get a part time job and help a bit around the house!

### *Child's Current Life Activities:*

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

20 years experience as a volunteer on various non-profit boards and committees. Currently I am the Chair of Community Ventures Society in Coquitlam.

### *Experience With Tests/Assessments and Professionals:*

Steven has been super assessed. Most were not that helpful. Steven learns basic skills, however it takes him a long, long, long time to learn a new skill.

### *Anything Else You Would Like To Share:*

The last year has been an interesting one for our family. I am really thankful that we were successful in getting a microboard in place for Steven. That has given us the vehicle to provide a different living

arrangement for Steven. I have had issues with my back and hips (must be getting old) and supporting Steven on a daily basis was taking its toll. Anyways, now with Steven living with Shari and Lorah, I am experiencing a new sense of freedom. I can work late without making alternate arrangements for Steve, I can meet a friend for coffee in the evening, or I can go and golf 9 holes after work. Now when Steven is home for a weekend, I wonder how I did this day in and day out for 23 years. It's amazing I don't think you really realize the big commitment you make to your son or daughter with a disability until they move on.

### *Child(ren)'s Names*

Lauren

### *Birth Dates*

8/27/1994

### *Comments*

Acquired brain injury-has 1 brother/3 step brothers

### *Child(ren)'s Description:*

Lauren was a shaken baby at the age of 4 months. While blind and paralyzed afterwards, she has worked hard with speech, physio and occupational therapists over the past 19 years, as well as vision specialists. She is very verbal, can walk (though poor balance), does have cognitive and fine motor challenges and is legally blind (she does have low vision). She has a ventriculo-peritoneal (VP) shunt.

### *Child's Current Life Activities:*

Graduated from high school last year. Currently has individualized support for fitness class, cooking and other community activities. Loves to go to movies with friends and hang out with friends. Loves reading books and writing(all technology assisted). Loves her adapted bike, going for walks, travel, new experiences.

### *Spouse/Partner Information (optional):*

Ian Mackenzie - married since 2007

### *Community Related Experience or Knowledge:*

Board member of the Fraser Valley Brain Injury Association for 8 years. Organize a parent support group for parents of young adults transitioning out of school.

### *Experience With Tests/Assessments and Professionals:*

Lots of experience with low vision clinic, adaptive technology for low vision, iPad use, VP shunts and physiotherapy, speech therapy, occupational therapy.

### *Birth Dates*

### *Comments*

Nicole

9/25/1992

Breanne

8/17/1994

Passed away on 2017 02 10

### *Child(ren)'s Description:*

Breanne had high needs. She used a wheelchair, was tube fed, totally dependent, non-verbal, and had the greatest sense of humor and loved to tease. She did not need words to communicate. She loved music and being outside. Her love of life and her unconditional acceptance of others is her legacy that we hope will live on in the lives of others.

### *Child's Current Life Activities:*

Breanne was living at home and attended a day program where she was totally supported and was with her friends.

### *Spouse/Partner Information (optional):*

Karen is the manager of the Laboratory at Mills Memorial Hospital.

Murray operates adult literacy and English-as-a-second language programs in Terrace.

### *Community Related Experience or Knowledge:*

Murray was an Executive Director at a CDC, sat on the board of the Interim Authority for CLBC, Giving in Action Committee, had been on countless committees, was on the FSI board of directors, and is the editor of the FSI Possibilities newsletter.

### *Experience With Tests/Assessments and Professionals:*

We visited Sunny Hill Health Center and local seating clinics for wheelchair adjustments and have met many OT's and other professionals. We survived the transition to CLBC and got to learn about their dispute resolution process on a few occasions (it does work well, but does require effort), and learned about the difficult transition to adult health services. We did start the process of obtaining approval to CBD oil for Breanne, but unfortunately she passed away before we could start using the oil, but we are familiar with the process.

### *Anything Else You Would Like To Share:*

Our daughter, Nicole, was the world's best big sister to Breanne. We think that growing up with a non-verbal sister gave Nicole great communication skills that are benefiting her as a paramedic.

| Catherine | 6/20/1985 |                              |
| Amanda    | 2/11/1988 | Lives with Williams Syndrome |
| Johnathan | 9/28/1990 |                              |
| Nathaniel | 11/3/2009 | Adopted - has many issues    |

### *Child(ren)'s Description:*

Catherine is a phlebotomist in the local hospital, wife and mother to two beautiful daughters.  
Amanda has Williams Syndrome and lives in her own apartment in our home.  
Johnathan lives in Merritt with his girlfriend and works with computers.  
Nathaniel has lived with us since he was born, and is a challenging addition to our family.

### *Child's Current Life Activities:*

Amanda is amazingly independent in the community has a very full life catching the bus and getting around to where she needs to go be it work or going to her volunteer job or her work out. Nathaniel has a big deletion on 4P, which inherited from his mother. He has high anxiety as well as an attachment disorder, the play therapist put him emotional around 2 to 3 years old. Nathaniel is in a Grade 2/3 class but he is at a beginning grade 1 level.

### *Spouse/Partner Information (optional):*

Rick is retired what more can I say.

### *Community Related Experience or Knowledge:*

I sit on the community council, and over the years have been involved with many committees, with the city and various ministries.

### *Experience With Tests/Assessments and Professionals:*

Experience with many different assessments and tests.

| Simon Unrau               | 3/17/2006          | Son             |

### *Child(ren)'s Description:*

Our daughter, Josie, was diagnosed with PDD NOS (ASD) and a developmental delay at SHERC in February 2007. At the time of her diagnosis, the pediatrician noted that our son Quinn, who was also present at her assessment was displaying some ASD traits as well. Our son, Quinn, was diagnosed with ASD and borderline NVLD in February 2008. Our youngest, Simon, displayed some red flags from a young age, but has now been discharged from IDP.

### *Child's Current Life Activities:*

Quinn - Grade 2, Social Skills Group, OG Tutoring, OT, SLP.  
Josie - Preschool, SLP, OT, ABA therapy.  
Both participate in summer camp thru parks and rec. in the summer time.

### *Spouse/Partner Information (optional):*

Kevin Unrau (husband)

### *Community Related Experience or Knowledge:*

I am currently in a short term contract position as the Family Support Worker at RMACL (Ridge Meadows). I am on the FAC at the Ridge Meadows Child Development Centre. I regularly attend Inclusive ED meetings.

### *Experience With Tests/Assessments and Professionals:*

Both of my children were assessed and diagnosed with Autism at SHERC by the genetic pediatrician team. We work with private OT's and SLP's along with staff at CDC and thru the school district.

Todd

3/14/1987

Graduated June 2005

Brad

7/13/1989

Grade 10 - fall 2005

### *Child(ren)'s Description:*

Todd, my eldest is a wonderful and caring individual, who is fiercely protective of his younger brother. He has a strong sense and belief in fairness. Brad is the young man who changed my life when he came into this world. He is a bright and determined young man with a fantastic sense of humour. He has never let his disabilities (cerebral palsy, vertical motor apraxia, severe learning disability) prevent him from doing what it is he wants to do. Brad has attended Space Camp for the Visually Impaired in Huntsville, Alabama in 2003 and 2004.

### *Child's Current Life Activities:*

Todd is off to university after spending the summer working as a youth/child care worker for our local child development centre. Brad enjoys volunteering at the town's recycling depot and has logged over 200 hours. He plans on getting a 'real job' this fall.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

Special Education Teacher (Diploma and Masters in Special Education), President of local child development centre and delegate to the BC Association of Child Development and Intervention (provincial organization), Space Camp for the Visually Impaired.

### *Experience With Tests/Assessments and Professionals:*

Sunny Hill Health Centre for assessment through the Visual Impairment Team, physical and occupational therapists, speech/language pathologist, (locally and through Sunny Hill) psychological assessments, recreational therapists, BC Children's Psychiatry Outreach, Aug/Com Outreach, school district OT/PT, SLP and Teacher of the Visually Impaired.

Grayce Hilton

10/11/1997

Soto's, FASD

Lynn Hilton

1/14/2001

Soto's, CDBC, NES, ADHD

### *Child(ren)'s Description:*

Grayce is in Grade 11, participates in the resource room program at school, she is very outgoing, lives life with a big spoon. Very poor boundaries, global delays which makes her extremely vulnerable. Lynn is more introverted, is tech savy and would spend days using a screen if unmonitored. Lynn is in Grade 7 and has significant generalized anxiety which impacts all aspects of her daily living.

### *Child's Current Life Activities:*

Both girls are involved in Special Olympics: swimming, bocci, bowling, theraputic horseback riding. Volunteer work: Candy Stripers and SPCA. They have participated in the Coquitlam Challenger Baseball Program.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

Foster parent 20 years, Regional Rep, Support Worker, Safe Babies home: special needs infants-alcohol/drug exposed. Familiar with adoption process, at risk teens, birth families and lifestyle issues. Currently enrolled in Community Support and School Worker Program at Vancouver Island University. Re-establishing ECE 3-5 year licencing. Casual community advocate - people are directed to me. Special Olympic Junior Bowling coach 7 - 19 years.

### *Child(ren)'s Description:*

Siobhan is married, lives in Nottingham, England, and is a lecturer at Nottingham Trent University. She and her husband, Josh are expecting a baby in June 2007.  
Adrienne has multiple and profound disabilities, lives in a small suite attached to our home, and is supported by a microboard.

### *Child's Current Life Activities:*

Adrienne has a home-centered program that is designed to accommodate her complex health issues. Her support workers involve her in community activities and events based on her preferences and interests, such as swimming, music events, music therapy groups, and social groups with her peers.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

I have sat on many committees since Adrienne was a young child. Currently, I am on the CLBC Community Council and a local employers collective. I am a retired Child and Youth Mental Health therapist with MCFD.

### *Experience With Tests/Assessments and Professionals:*

Experience with community nursing services, seating, nutritionists, swallowing experts, MCFD Mental Health Services and neurologists.

### *Anything Else You Would Like To Share:*

I have received funding for my daughter's suite and her van and lift. We have negotiated adequate supports for her through a microboard. I am a successful planner and advocate!!

### *Child(ren)'s Names*

Paul Holloway

### *Birth Dates*

9/13/1975

### *Comments*

brother with disabilities, dependent - FAS & autism

### *Child(ren)'s Description:*

Our family adopted Paul at age four. He has autism and fetal alcohol syndrome. He has grown up, now leading a semi-independent life as an adult with part-time employment. During his spare time, Paul enjoys attending a social club, family events, concerts, parks and Vancouver Giants hockey games.

### *Child's Current Life Activities:*

Attends a adult day program part-time for life and social skills. Employed part-time on a landscape and labour work crew through an agency.

### *Spouse/Partner Information (optional):*

Single

### *Community Related Experience or Knowledge:*

Police/Legal/Crown Process, victim services crisis intervention. Estate, Legal and Financial Planning. CLBC adult services, a member of PLAN and a local advocacy group  
My career has included working in the social services sector (group homes and shared living contractor), government, mental health and law enforcement as a civilian. Currently I am enrolled in a counselling diploma programme and have other certifications in office administration.

### *Experience With Tests/Assessments and Professionals:*

DDMHS- Developmental Disabilities Mental Health Services, behavioural therapy, CLBC Adult Assessments.

### *Anything Else You Would Like To Share:*

We have lived together as adults siblings for over twelve years. Our family has done much planning for Paul including legal and financial. As a sibling I serve as a natural role model, who he looks up to and for whom we enjoy sharing our lives together.

### *Child(ren)'s Description:*

We are a busy family with working and going to school. We are involved in several different activities in community.

### *Child's Current Life Activities:*

Hayley plays ringette and soccer.

Eric belongs to Special Olympics, a youth support group, and has a newspaper job. He volunteers at the school, Cancer Society and Relay for life walk.

Alicia is schooling, helping around the house and helps with driving.

### *Spouse/Partner Information (optional):*

I'm a single parent for the past 11 years. I have no partner so I rely on my daughter, Alicia to assist with driving and some volunteer times when needed and I am not able to do so due to work. She is a great advocate for her brother and sister.

### *Community Related Experience or Knowledge:*

I work as an nurse's aide for the local Seniors home. I volunteer where needed i.e. - youth group, Cancer society and schools.

### *Experience With Tests/Assessments and Professionals:*

I have several years of experience from everything my son has gone through with testing, psychologists, therapy etc. I have an understanding and have learned how and what professionals are trying to say, as well as how to be an advocate for my children's needs.

### *Anything Else You Would Like To Share:*

I'm a good listener, and I'm willing to help when I'm able. I always want to know more about disabilities.

### *Child(ren)'s Names*

Julia Kang

### *Birth Dates*

11/18/2001

### *Comments*

### *Child(ren)'s Description:*

Julia was born with a very rare and potentially life-limiting metabolic condition known as Glutaric Acidemia Type 1. She was also diagnosed with Hydrocephalus (VP shunt), Visual Impairment (Optic Nerve Atrophy), Seizure Disorder and Global Developmental Delays (She can self-wheel and walk short-distance using push walker). Despite the complex medical challenges she faces every day, she is a very social girl - super happy, funny, chatty and loving, too. She loves singing, playing with kinetics and sharing her passion and interests with everyone she encounters.

### *Child's Current Life Activities:*

Home schooled (Distributed Learning through Self Design)  
Attending St. John Brebeuf High School in Abbotsford (part-time)  
PT, OT, Speech, ABM (Anat Baniel Method), Voice Lessons, Volunteering

### *Spouse/Partner Information (optional):*

Jun Kang - Business Owner, currently in training to become an ABM Practitioner

### *Community Related Experience or Knowledge:*

Sunny Hill: Psych Ed Assessment, Seating & Mobility Clinic, Gait Lab  
BCCH (working with numerous specialists @ BCCH) - Biochemical Disease Team, Neurology Clinic, Orthopedic Clinic, Neuro Surgery Clinic, Youth Clinic, ENT Clinic, Endocrinology Clinic & a few more.

### *Experience With Tests/Assessments and Professionals:*

### *Anything Else You Would Like To Share:*

ABM (Anat Baniel Method), Vanspec (Catholic Faith Program), IEP, Parent Advocacy, Home renovation, Mobility Aids (Walker & Wheelchair), Botox Treatment, Orthotics (AFOs)

### *Comments*

Ken

8/3/1980

Tricia

6/29/1981

Passed away on 07/16/92.

### *Child(ren)'s Description:*

Ken is just completing Grade 12 - a wonderful young man who keeps us very busy. It will be exciting to leave the school system after 18 years. Ken's dreams include one day owning his own restaurant and Mustang - and visiting Disneyland again and again. Tricia was a young girl with high energy, a great sense of humour, and a zest for life unmatched by anyone. Ken learns in his own way and own style that has never fit the norm in the school system.

Tricia carried many labels that brought support and services and many great teams.

### *Child's Current Life Activities:*

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

Founding member of Community Options (respite and family support); previous FSI board member; Nurse; mother; wife; friend and neighbour. I currently work at Victoria Association for Community Living in family and personal support. I have sat on the Appeal Board for the At Home Program and the Provincial review of Supported Child Care. Lobbying and advocacy: Personally for supports and services for our daughter, son and family, as an RRP supporting others, for inclusion in our neighbourhood school, for choices in delivery of respite (not having to sign your child into care for respite), Supported Child Care vision where family choice is foremost and dollars follow the child.

### *Experience With Tests/Assessments and Professionals:*

I personally dislike assessments on principle - it sometimes has felt the whole family is being assessed. I have also had very beneficial assessments done for our son that are right on. I am saddened one must often go through showing what doesn't work to get funding doors opened. I feel there should be a different process - a more family-centred strength focussed process.

stepson

### *Child(ren)'s Description:*

Jennah loved her family and friends. She had a passion for swimming, swinging, lawn bowling and bike riding. Jennah was a dedicated Canucks fan and loved watching the games with her family.

### *Child's Current Life Activities:*

Jennah was very active in her high school and our community. She made great gains with her mobility and the use of her technology with the support of her school team and S.E.T B.C. She left a legacy behind her. Her journey through life touched everyone who knew and loved her. She is free now and peaceful.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

I could call myself an expert in dealing with the medical profession! I work as a Student Support Worker in the junior high school. I also have experience in accessibility issues. I also teach a dance class for people with disabilities (movement, music and bellydancing).

### *Experience With Tests/Assessments and Professionals:*

Assessments and therapies were helpful and positive. As a parent it's often difficult to bite your tongue! We know our children best.

|----------------|-----------|--|

### *Child(ren)'s Description:*

As I write this in the late fall of 2008, this is the first year that none of our children are in school and next month will be the first Christmas that not all of our children live at home. Christian and Josh both live at home. Marina moved to Yellow Knife last summer where she is working at the airport - we expect that she will move back in two years when her boyfriend's pilot contract is finished. Josh has been working and exploring options for his future.

### *Child's Current Life Activities:*

Christian continues to enjoy a range of opportunities. He works part-time, one day each week for an hour or so at BCACL (in the same office where FSI is located). He also enjoys a range of activities depending on the day. He goes to the gym each day for a structured opportunity to expel energy and he goes on the 'shred mill' (tread-mill) though this is not a favoured activity, it has proven to be helpful for reducing some of his excessive energy and has also created interesting connections at the local community centre. Saturday is Christian's favorite day of the week because it is his Video day. He spends part of the day watching, rewinding, rewinding, rewinding, and rewinding a few of his hundreds of videos. He also enjoys Sundays when he is able to spend some time watching and rewinding, rewinding and rewinding a few of his DVD's (though this is a smaller collection).

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

I am currently the Manager of Child and Family Support at Community Living BC (CLBC) and work in the area of program and policy development at the provincial head office. I previously worked at BCACL and before that I worked for the Autism Society as parent support group coordinator.

### *Experience With Tests/Assessments and Professionals:*

Behaviour Therapy - CBI

### *Child(ren)'s Names*

Bradley Magnus

### *Birth Dates*

9/18/1972

### *Comments*

born with Down Syndrome

### *Child(ren)'s Description:*

Brad grew up as the second of four boys. His brothers are grown and going on their separate ways. Brad has travelled internationally, advocating regarding the abilities of people with disabilities - bringing hope to parents and professionals.

### *Child's Current Life Activities:*

Brad has audited classes at the University of Victoria for 5 years and lived mainly independantly during that time. Presently he is in a supported independent living situation which seems positive and sucessful. Brad is on the Victoria D.S.S. board and has been a rep. to CDSS.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

Community Living Victoria has provided outstanding support to Brad and in turn, his family. Special education and total integration are topics for which I have a particular interest due to my involvement and perspective as a "mature" parent.

### *Experience With Tests/Assessments and Professionals:*

### *Anything Else You Would Like To Share:*

Our emphasis is on finding an individual's interest and abilities - then building from that foundations to teach various skills. Thus a charitable society has been established "HEARD" (Handicapped Enrichment and Realization Society) to promote the abilities of our children.

### *Birth Dates*

### *Comments*

Melanie

9/6/1979

### *Child(ren)'s Description:*

Powerful AAC communicator. Disabilities related to CP from premature birth. Loves to act. Able to stop 25-50% of her partial seizures.

### *Child's Current Life Activities:*

Integrated with pull out to generic places like library, etc. Still struggle with this.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

I am an RN, mental health professional experience, regional resource person for BC Strategy for Co-ordinating Disability Issues, User of direct funding and community inclusion. Grass roots lobbying for At Home Program, SCC, direct funding for respite. Emphasize that respite is just as much for the child as for the parent.

### *Experience With Tests/Assessments and Professionals:*

Communication assessments helpful. Process to identify functional needs works best for us rather than IQ tests.

### *Anything Else You Would Like To Share:*

We are very busy with transition and would like her to bond with a couple of families of various types to practice living away from home.

Nicole

5/25/1978

Caring and thoughtful

Travis

4/5/1982

Funny, great sense of fun

### *Child(ren)'s Description:*

Travis was born with Cerebral Palsy and Marcus Gunn Syndrome. Travis is sensitive, caring, warm, needs lots of attention and has a fun sense of humour. He loves camping, playing, computer games, enjoys bowling with Special Olympics, and riding his bike.

### *Child's Current Life Activities:*

Travis attends our Community Living Day Program and enjoys socializing with his friends. He enjoys his social nights. He is involved with Special Olympics bowling.

### *Spouse/Partner Information (optional):*

Married to Kerry. Kerry is enjoying his retirement from Tech Cominco after 42 years of service. He is very supportive. Kerry and Travis are inseparable.

### *Community Related Experience or Knowledge:*

Special Education Review Committees, Parent Committee for Childcare Worker Contract, and the Kootenay Region Association Planning Committee for the Community Living conference.

### *Experience With Tests/Assessments and Professionals:*

When Travis was younger and involved with the Neuro-Motor Program at Sunny Hill, the reports were very informative. Suggestions were not followed through by the school. We are now involved with CAYA.

### *Anything Else You Would Like To Share:*

In this 30 years (WOW) journey of ups and downs with Travis, we have come to learn the value of family, friends and patience. We celebrate Travis' sense of humour, his spirit of fun and the times when he shows his caring of others with disabilities.

| Ryan                      |                    | 1991            |

### *Child(ren)'s Description:*

Danielle was born with Sturge-Weber Syndrome. Ryan has attention deficit hyperactivity disorder (ADHD) and mild learning disabilities.

### *Child's Current Life Activities:*

Danielle attends the Mediated Learning Academy in Coquitlam and Ryan attends Terry Fox Senior Secondary School. Danielle loves to always be on the go and Ryan likes computers.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

I have served on numerous committees and provide support to families of children who have Sturges Weber Syndrome, a very complex neurological medical condition. I held the very first conference on Sturge-Weber Syndrome in 2005 for Canada.

### *Experience With Tests/Assessments and Professionals:*

Dr. Suzanne Jacobsen of the ABA Learning Centre has been of great assistance in shedding light on neurobehavioural disorders. She has extensive experience from an educational and behavioural perspective.

### *Anything Else You Would Like To Share:*

I will be able to provide information to any other family who might consider moving and I can also compare services available in BC to those of Alberta. In addition, I continue to support those who have a family member with Sturge-Weber Syndrome across Canada including BC.

### *Child(ren)'s Names*

### *Birth Dates*

### *Comments*

Amber

11/15/1979

passed away on Feb. 2, 2017

Latisha

7/27/1981

### *Child(ren)'s Description:*

Amber is an extraordinarily peaceful, loving young woman who loves life's quieter side - from activities to music! She LOVES singing and finds touch very important. She uses Bliss Symbols in communication. Latisha is a person who loves excitement, dance, painting and riding FAST, and uses a computer, a laser and vocalization for communication.

### *Child's Current Life Activities:*

Tisha is in an individualized education program within the school district in a separate building on the school campus for adult students. Afternoons she volunteers at the local day care centre with an emphasis on arts and crafts and computers. This year her focus is puppetry.

Amber has her Tuesday afternoon community singing group which takes place in her home. There are no performances and no particular skill is required.

Amber's microboard is "Amber's Place Society". Tisha's microboard is "MOCHA".

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

### *Experience With Tests/Assessments and Professionals:*

Over the years I've found LITTLE use for test assessments and LOTS of stress involved in putting kids through them. Seating clinic is a necessity and can either be heaven or hell depending on the staff involved. Now as adults, Amber and Tisha no longer have to put up with assessments.

### *Anything Else You Would Like To Share:*

We have built Amber and Tisha a home of their own across the street from us. The house was brought 16 feet down the mountain so that the house was level with the road. The signature of the design was a paved courtyard and the paving stones are being laid. This will provide an outdoor covered accessible courtyard

---

## JUDY PETERSON

Drew

11/19/1983

A great kid and super brother

Bree-Anna

5/9/1986

Our princess - ruler of the house!

### *Child(ren)'s Description:*

Drew is engaged to be married, but with no set date. He continues to be a huge part of his sister's life. He has been working for the local community living association in Prince George for 5 years. Our beautiful Bree-Anna has a Microboard and enjoys an active life in her community. She is strong, determined and has a warm and loving spirit. She is a joy!

### *Child's Current Life Activities:*

Bree has completed 3 years at the local college and we are now in the process of developing a new program for Bree and 6 of her friends. Bree enjoys going for lunch, going to movies, the mall and her friends' houses during the cold winter months. They bowl, go to karaoke and PARTY!!

### *Spouse/Partner Information (optional):*

Gord Robertson (RP also). Gord is very involved locally and provincially in the disability movement.

### *Community Related Experience or Knowledge:*

Both Terry and Gord have had local and provincial involvement on committees, etc. Gord sat on the local CDC board for 5 years and is now finishing 6 years on the board of FSI. Terry has sat on many local school district and social service committees. Terry has been with FSI for over 10 years and was involved in the Individualized Funding Family Coalition, and Sunny Hill's parent advisory. She also sat on the Transition Steering Committee, the Interim Authority board, VELA Microboard Association board and now works for VELA part-time. Terry has been running a local support group for parents since 1988.

### *Child(ren)'s Names*

Noella

### *Birth Dates*

12/1/1986

### *Comments*

youngest sister who lives with Down Syndrome

### *Child(ren)'s Description:*

I come from a family of 4 sisters, the younger of which has Down Syndrome. We grew up very closely and maintain close relationships today. Over our lives together Noella has constantly challenged my patience and flexibility. She also brings a welcomed poetic simplicity, and joy of living to our family and our community. She is a vibrant young woman with an artistic talent and a huge heart.

### *Child's Current Life Activities:*

My sister Noella lives in Courtenay in a Home Share arrangement. She attends a day program M-F and works part time at a supported employment position at a local cafe/bistro. She is involved in several Special Olympic sports including swimming, rhythmic gymnastics, and track and field. She is very connected with her family and community.

### *Spouse/Partner Information (optional):*

My husband and I live in the Comox Valley (Courtenay) with our 2 young children. He works as a carpenter while I work as an Occupational Therapist (mostly with adults with mental health and substance use issues), we both have part-time schedules so we can take turns being home with our children. When we are not working, or hosting friends at home, we can be found at the beach, in the forest, or on the mountain, being active in a variety of sports.

### *Community Related Experience or Knowledge:*

I am an Occupational Therapist, currently working on an outreach mental health team in downtown Courtenay.

I have also been involved as a volunteer for a variety of sibling support groups, most recently in my home community of the Comox Valley.

### *Experience With Tests/Assessments and Professionals:*

Nyleah

Tavis 6/10/1978

Levi 7/7/1979

### *Child(ren)'s Description:*

Tavis - 27 years old, working and living on the mainland, and we "STILL" see him when he needs food!!  
Levi - 26 years old and living at home. Recently adopted, after 3 1/2 years, a beautiful daughter, Nyleah.

### *Child's Current Life Activities:*

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

Experience and knowledge about FAS and how it impacts on adults. Varied and numerous experience over the past 20 years with local and provincial boards, committees, etc. Teaching assistant (on-call) for past 10 years. Have spent most of my last 7 years advocating for my own son's needs. Recently joined the provincial advisory group on individualized funding.

### *Experience With Tests/Assessments and Professionals:*

### *Anything Else You Would Like To Share:*

We are also full-time foster parents who typically have 2-3 children in our home at any given time.

| Ben                       |                    | 28 years old    |
| Chelsea                   |                    | 32 years old    |
| Dustin                    |                    | 36 years old    |

### *Child(ren)'s Description:*

Ben is a person with a developmental disability and on the autism spectrum with Fragile X, however we prefer to say he is 'a person with a chronic case of acute individuality'. Ben went through the public school system until the end of grade two and then we homeschooled together until he was about eighteen accessing the Chilliwack Distance Education Program.

### *Child's Current Life Activities:*

We had always planned for Ben to have some kind of home-based business and when it was time to get moving on it, we started with a grocery shopping and delivery service. We gave it a shot for a year and discovered that this was not what people were looking for at that time. In time, we opened discussion again around 'what do you want to do?' and it turned out Ben wanted to be an entertainer. Ben has been entertaining with voice impressions now for three years and is having the time of his life doing it.

| Landen Skene-Hartley      | 4/15/2006          |                 |

### *Child(ren)'s Description:*

My children have taken me down paths in our life that I couldn't have imagined. Some great, some not so great. However, we have always maintained a "team tough enough" attitude that has sustained us throughout the years. Our family has incredible support from other family members and close friends that have become family. My children are currently 15, 10 and 9. My oldest 2 are neurotypical and my youngest has diagnosis of Primary Carnitine Deficiency, Cerebral Palsy and ADHD. We have taken this journey together.

### *Child's Current Life Activities:*

My 2 oldest children attend school full-time. Justis is primarily interested in electronics (building, modifying, and exploring). Savhannah is primarily interested in Arts, Music, and other creative avenues. Landen attends school for 2 hours a day on a highly modified program. He is not in the classroom and we continue to work towards that goal. Landen is primarily interested in games (cards, board, and electronic), sports (soccer and swimming), and small figurines (army men and lego).

### *Spouse/Partner Information (optional):*

I have a supportive partner that currently works out of town. He is not the father of my children. He has taken several workshops and read literature regarding the difficulties our family faces. The father of my children does not acknowledge the severity of Landen's disabilities nor Savhannah's difficulties in coping and understanding having a brother with disabilities.

### *Community Related Experience or Knowledge:*

In Quenel, I attended a neurological support group, the FSI support group, and the Autism support group. I was active at the Child Development Centre and partake in many workshops and speakers that were made available to parents. I also had a family support worker, occupational therapist and physiotherapist. I was working in my 3rd year of my BSc in Psychology at UNBC and hope to finish my degree at TRU in the

## JOELINE SKENE

*Email:* spicycivic@gmail.com

future. My education to date has helped me develop my advocacy skills and work in a positive way for my family.

I was a member of the PAC at my children's school last year. I enjoyed the position of secretary on both groups.

### *Experience With Tests/Assessments and Professionals:*

Our family has a wonderful team at BCCH. They have helped connect me with community supports and fellow parents. Sunny Hill has been a great place to visit to break up our trips to BCCH. Given our experiences with the variety of tests and surgeries related to Cerebral Palsy, I feel I gained experience to help a fellow parent navigate this stressful system. I believe that it takes a community to raise our special children. The parts of the community we need and want the most are not always the same. Knowing all policy and procedures for any system/institute can help develop a great community for our kids.

### *Anything Else You Would Like To Share:*

As a parent I would have to say two sayings that have helped me thru the years to stay focused at the issue at hand and calm the emotional overload have been: "Science is young and the rest is left up to faith" and "I am the expert on my child".

| Sidney | 4/1/2004  | son-stage 4 cerebral palsy |
| Audrey | 1/22/2006 | daughter                   |
| Atlee  | 3/7/2010  |                            |

***Child(ren)'s Description:***

Sidney was born full term with cerebral palsy. Delivery was induced and difficult. Sidney was born with a very low APGAR score and was transported to Childrens Hospital. I was transferred along with him where I then developed severe HELLP syndrome. Sidney was hospitalized for 3.5 months and had to show he could thrive outside of the hospital before we were able to take him home. We were told that Sidney would not walk and would most likely be in a vegetative state his whole life. Before leaving the hospital we were also asked if we would like to put him into foster care, as foster care parents receive payment for caring for him where we would not. Since that time my husband and I have worked extremely hard to enable him to give him the most typical upbringing as possible. I can happily say that he is a thriving 14 year old boy who is cognitively at par with his peers, and above par in some areas. He might not be able to walk independently but he can walk with the aid of a walker. Even though he is non verbal he can communicate very well with and without the aid of a communication device. He has been tube fed since the age of 4 but also enjoys tasting all sorts of foods. Sidney was born having seizures and was on meds until around 5 months. He remained seizure free (or we think he was) until the age of 13. He is currently on seizure meds.

***Child's Current Life Activities:***

Sidney is a grade nine student at Sir Charles Tupper Secondary School in Vancouver where is his currently part of, and followed by, the Provincial Inclusion Outreach Program. He is mainstreamed with a one on one care aid. He has one main care aid and three relief workers/back ups. He receives private physiotherapy and speech therapy once or every two weeks. He plays power soccer every Sunday night on a team. Sidney enjoys going to movies, bowling with friends, PS4 games, iPad games and his fish tanks.

---

My community related experience would consist of navigating daycare facilities, out of school care, schools and other child care options such as nannies and respite workers. I am currently on the board of the BC Cerebral Palsy Advisory Committee as a parent volunteer within the Care Coordination Group. I also attend the Sunny Hill Redevelopment sessions giving feedback on the physical layout and design of the new facilities at BC Childrens Hospital. I have also worked with and continue to work with Vancouver Parks and Rec where I review architectural drawings for accessibility and inclusion. As well as give feedback after the work is completed. As a member of the PAC at Sidney's elementary school I helped raise over \$60,000 in 5 months to resurface our playground making it accessible.

Professionally I am a communication designer with a masters in design. I am currently developing a communication system that has been created with user input. The hub of my work focusses on universal design for systems, education and inclusion.

***Experience With Tests/Assessments and Professionals:***

Sidney and I have experience with: Psychologists, neurologist, orthopaedic, ophthalmologist, optometrist, nutritionist, tone management clinic, seating clinic, technology, AAC, pain clinic, G-tube... Childrens Hospital, Sunny Hill, paediatricians and family physicians.

### *Child(ren)'s Names*

Keanan Williams

### *Birth Dates*

12/16/2004

### *Comments*

### *Child(ren)'s Description:*

My son is 5 years old and just finishing kindergarten. He is an active, vivacious and funny child and a joy to be around. He is incredibly affectionate and loves to learn. He has had a very successful kindergarten year. In 2009, Keanan received his diagnosis of mild/moderate ADHD, Anxiety disorder (NOS), Expressive language disorder and undiagnosed Sensory Processing Disorder. Keanan has had OT and worked with mental health, supported child development and has a behavior designation for school.

### *Child's Current Life Activities:*

Kindergarten and daycare, Beavers, swimming and gymnastics. We live on a hobby farm, so Keanan is very involved with the animals. He is an outdoor kid and thrives when in nature. Being members of our church and attending Sunday school.

### *Spouse/Partner Information (optional):*

I am re-married to Dave Stark. Dave has a 14 year old daughter that lives in Vancouver and comes here on weekends.

### *Community Related Experience or Knowledge:*

Langley Special Needs Advisory Committee member, Supported Child development sub-committee member, board of directors at my son's daycare, Community Recreation programmer (aquatics and recreation), adapted recreation programming, workshops and course on ADHD and SPD.

### *Experience With Tests/Assessments and Professionals:*

Infant Psychiatry at Children's Hospital, Gastroenterology at Children's, Psychology assessment through Centre for Child Development (done through the Westcoast Child Development Group), speech and language, supported child development, mental health, Ministry of Children and Families, mediation for separation/divorce, Occupational Therapy, IEP in school.

|-----|----------|--|
| Ben | 5/3/1999 |  |
|-----|----------|--|

|      |           |  |
|------|-----------|--|
| Mark | 5/22/2001 |  |
|------|-----------|--|

### *Child(ren)'s Description:*

Ben is in Grade 12 and will graduate with his class but will go back for one more year to get his Adult Graduation Diploma. Ben is still doing speech therapy and is wondering if it will ever end. It will.

Mark is in Grade 10 and doing pre-Calculus even though the psychologist said it would be very difficult for him.

### *Child's Current Life Activities:*

Ben is busy with Special O Curling and Golfing, and his computer. Mark is just busy with friends and computers.

### *Spouse/Partner Information (optional):*

Dave has now been retired for 3 years and is not looking back.

### *Community Related Experience or Knowledge:*

I have served on the FSI board 2 times of 2 years each. I chaired the Cranbrook support group for Autism for a few years and now I just help out.

### *Experience With Tests/Assessments and Professionals:*

We were diagnosed at Sunny Hill's and it was a very bad experience including them taking Ben in an elevator when we asked them not to. Ben still does not go in elevators. Sunny Hill told us to call or our workers to call for information and help. When we did we were told that there was no help - please don't call. I recommend that if you live in the Kootenays, it is better to go with ICAN Interior Health Children's Assessment Network. I have heard much better experiences than ours at Sunny Hill.

### *Anything Else You Would Like To Share:*

Life is busy and fast - slow down and take a look or you might miss it.

### *Child(ren)'s Names*

Wyatt Collins

### *Birth Dates*

11/21/1997

### *Comments*

Autism

### *Child(ren)'s Description:*

Wyatt is sixteen and is autistic. Despite his communication, social and sensory challenges, he is a happy and fun-loving kid and brings so much joy to our household.

### *Child's Current Life Activities:*

Wyatt is in Grade 11 and is on a modified program. He integrates into the some classes and loves the hands on courses such as home ec, wood work, art. He is also does some group work and one to one work in the learning assistance room. He loves math but struggles with reading. Wyatt bowls with a group once a week, golfs, swims and kayaks.

### *Spouse/Partner Information (optional):*

Don is a stay at home dad but also runs a paintball business (field and store). He takes Wyatt to Kamloops for OT on a regular basis, golfs with Wyatt, picks up/drops off at school every day and basically keeps the household schedule running smoothly.

### *Community Related Experience or Knowledge:*

I have a Master's Degree in Social Work. I also own a consulting business (18 years), I primarily work with Aboriginal communities. I facilitate workshops and training and assist with community engagement projects. I also serve part-time as the Aboriginal Supported Child Development Consultant for the Merritt area, supporting Aboriginal children and youth with developmental disabilities. I also facilitate special needs workshops for families and communities.

### *Experience With Tests/Assessments and Professionals:*

I am familiar with the assessment process for Wyatt and for clients that I support. Familiar with Sunnyhill, IHCAN, Occupational Therapy, Speech/Language Therapy, Behavioural Consultants, Physical Therapy, Kamloops Resource Centre, CLBC, etc.

|---------------------------|--------------------|-----------------------|
| Warren Newcomen           |                    | father                |
| Westin Newcomen           | 11/18/2002         | son with disabilities |
| Finn Newcomen             | 9/26/2005          | brother               |

### *Child(ren)'s Description:*

Westin lives with a severe intellectual disability and autism. He has a sensory processing disorder and epilepsy.

### *Child's Current Life Activities:*

Westin finds great pleasure in family and being outdoors. He is very social and has a terrific sense of humour. He has learned to ride a bike independantly, downhill ski, and swim. His gross motor activities have been his greatest successes. He also adores movies, music, horseback riding, and dancing.

### *Spouse/Partner Information (optional):*

Warren Newcomen

### *Community Related Experience or Knowledge:*

As Westin's mother, I have learned to advocate and problem solve in an efficient and professional manner. After I moved through my grief, I was better able to care for myself and my family. FSI has been a place where I find support, understanding, knowledge and expertise from other parents. My work as a Resource Parent has contributed to my own growth and my wish to give back to others who may be in need of support.

### *Experience With Tests/Assessments and Professionals:*

After multiple trips to Children's Hospital from Kamloops, where multiple tests were done by neurologists and neurosurgeons, I made a complaint to BC College of Physicians and Surgeons about poor service, expensive and stressful trips to the coast, and repeated assessments. The Director of Neurology responded immediately to my complaint letter and offered our family TeleHealth care (remote consultation for families in BC's interior and North). Without reaching a crisis and making a formal complaint, I would never have known about the remote care option. Other families should be told about this and offered the option. Since then, our trips to Children's hospital are rare and I am very pleased with the care.

***Child(ren)'s Description:***

Kristen was born with right sided congenital diaphragmatic hernia(CDH) required ECMO, had a stroke in the occipital portion of the brain, kidney failure, left femoral deep vein thrombosis(blood clot), spent 2 months in the ICU at BCCH and a month on the ward. Came home on NG feeds, lost her hearing around 6 months of age due to meds and ventilation to the profound range. First cochlear implant at 22 months, second at 8 years. Many feeding challenges with failure to thrive. Continued with oral feeds. NG pulled at 4 mths old. Diagnosed on the autism spectrum at 3.5 yrs old through Sunnyhill.

Kenny was born at 32 weeks gestation with a prolapsed cord. (he was sitting on it) diagnosed at 7 weeks with severe bilateral Periventricular leukomalacia (PVL), infantile spasms at 5 mths old, hydrocephalus at 6 mths old and had an ETV at 11mths so he does not have a VP shunt. He has quad spastic cerebral palsy level five on the CP scale. He also has a cortical visual impairment. He also had failure to thrive requiring a g-tube placement at 3 years old.

***Child's Current Life Activities:***

We have kids in swimming lessons, they are all at a choice program in Surrey at the Traditional school.

***Spouse/Partner Information (optional):***

Gary Taylor

***Community Related Experience or Knowledge:***

We are actively involved with the FIT network society, PAC at the children's school. BC Family Hearing Resource Society and the Deaf Youth today's summer program for the Deaf/HOH

***Experience With Tests/Assessments and Professionals:***

We have had Kristen through assistive tech at Sunnyhill(although she didn't require it), and she did her autism assessment and psych ed assessment there as well. Joe was assessed by ABLE clinic for his ASD diagnosis. And Kenny has seen the feeding team as a part of a swallow study at Sunnyhill, as well as tone

| <b><i>Child(ren)'s Names</i></b> | <b><i>Birth Dates</i></b> | <b><i>Comments</i></b>   |
|----------------------------------|---------------------------|--------------------------|
| Jaxton                           | 6/1/2013                  | son-cri du chat syndrome |
| Kamden                           | 1/1/2017                  | son                      |

***Child(ren)'s Description:***

I have a son (Jaxton) with Cri du Chat syndrome. This is a genetic disorder (a deletion on the 5th chromosome). He has learning delays, is non-verbal and uses a wheelchair. He is in a variety of therapies and is learning to stand/walk and use communication devices.

***Child's Current Life Activities:***

Jxton attends our local elementary school and has an EA to help him through the day. He has various therapies after school including PT, SLP and riding therapy. He loves to swim and go on amusement park rides. While it can be difficult we try to do as much "normal" stuff as possible.

***Spouse/Partner Information (optional):***

Lanz

***Community Related Experience or Knowledge:***

I have been involved with the rare disease foundation through parent meetings and fundraising activities. Our family has been an ambassador family for the Centre for Child Development since 2016. We have shared our families story through various platforms as well as participating in community events and fundraisers. I was involved in the UBC's health mentorship program where I would give students an inside look into what the life is like with a child with a rare disorder. Jaxton has been on the At Home Program since 10 weeks old and we have used over 10 departments at BC Children's Hospital. Jaxton is also involved in challenger baseball as well as a riding therapy program.

***Experience With Tests/Assessments and Professionals:***

Opthomology, orthopedics, medical genetics, surgical, audiology, ENT, Dentistry, Complex care, Physiotherapy, riding therapy, OT, SLP, equipment team (wheelchair, standing frame walker, seating, bathing, car seat), AFO orthotics, hand splints, hearing aid, At Home Program, MCFD, respite funding.

### *Child(ren)'s Names*

Cory

### *Birth Dates*

7/30/1989

### *Comments*

### *Child(ren)'s Description:*

Cory loves sports, his favorite is baseball! He has a great sense of humor which he creatively expresses through his computer he speaks with. He moves with a wheelchair and a jogger that he uses for P.E. classes, beachcombing and hiking in the beautiful Comox Valley.

### *Child's Current Life Activities:*

Cory attends high school in our neighborhood which has a "sports excellence" focus. He attends regular classes, uses Kurzweil to read his textbooks and a laptop to produce his assignments. He also enjoys involvement in the music community and uses software through his computer to be the percussion section of his school's R&B band.

Cory is actively planning his transition out of high school including: used the Restructuring Fund to renovate his home; planning a P.A.T.H.; forming a microboard; directing his staff and core; and growing his caregiving network.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

Community Advisory, North Island Ethics Committee. Through Laurie Fisher Consulting, I facilitate a community process for families and their youth who are transitioning through adolescence. I provide direct advocacy, training and resource development including fundraising and individual planning.

### *Experience With Tests/Assessments and Professionals:*

Use of a 'rural' therapy team, augmented with Sunny Hill and private therapists. Orthopedics at Sunny Hill, Children's and Shriners in Portland. Minspeak teacher.

### *Anything Else You Would Like To Share:*

- equipment, adaptation and home modification (barrier free access).

### *Birth Dates*

### *Comments*

Brett

7/2/1986

### *Child(ren)'s Description:*

Brett was born 20 years ago in Vancouver with hydrocephalus. He had a shunt at 2 days old. Brett seized at 2 1/2 years old. We lost all speech and motor skills again. He has attended school - K - 12 + 2 years. Brett is a young man with a zest for life. He loves dancing, ten pin bowling, swimming, horseback riding, going to school, being a part of everything, Star Trek, and Nintendo 64. He is an inspiration to anyone who meets him.

### *Child's Current Life Activities:*

Brett is finishing school and going to CNC next year in the new program - Open Doors Program. He lives in his own house, sharing with a friend, Tyler. They own the house through their microboards. It is funded by Brett being the main care person - Ministry of Health (Cecil) and CLBC. We tell him he has his country home (Mom & Dad's) and his city home. Brett is a lucky boy.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

I have been on many committees and started therapeutic riding, which I still run today. I have worked in the schools for integration, and assisted with parent groups. I am also on the AiMHi board. Today I am on Brett's microboard and making sure Brett's funds stay with his home.

### *Experience With Tests/Assessments and Professionals:*

We have been through Sunny Hill, Children's and now we are in adulthood.

Cydney is 28 years old. She has athetoid cerebral palsy. She is also non-verbal and in a wheelchair.

### *Child's Current Life Activities:*

Cydney participates in community activities such as yoga, adapted weight training and a social club. She also attends craft classes, scrapbooking and baking at the Burnaby Association for Community Inclusion with her friends. She started horseback riding which she loves.

### *Spouse/Partner Information (optional):*

### *Community Related Experience or Knowledge:*

I volunteer for the Access Advisory Committee for the city of Burnaby and am on the Advocacy Committee for the Burnaby Association for Community Inclusion (BACI).

### *Experience With Tests/Assessments and Professionals:*

N/A

### *Anything Else You Would Like To Share:*

Time flies! I've been retired from teaching for 9 years now and Cydney has been living on her own with supports in her own townhouse for 6 years. I admire her independence, sense of humour and the love she gives back to us and her caregivers. Through Cydney, we have met so many caring friends who have given us support.
