Dear House Leaders:

We are writing to you today as a collective of stakeholder organizations to urge you to work together to bring Bill C-22, the *Canada Disability Benefit Act*, back for second reading before the House of Commons rises for the summer break.

As you know, Bill C-22 has all-party support after the House delivered unanimous consent for MP Bonita Zarrillo's (Port Moody-Coquitlam) May 10, 2022 motion for the government to bring forward the Canada Disability Benefit. Additionally, the April 28, 2022 report from the Standing Committee on Human Resources, Skills and Social Development and the Status of Persons with Disabilities demonstrated a desire for this legislation to be speedily brought forward for the Committee's review and study.

Most importantly, the urgent income insecurity and affordability crisis facing millions of people with disabilities in Canada coupled with the high inflation especially affecting the basic goods makes bringing this legislation back for second reading a critical and time-sensitive priority. The bill's second reading will be a milestone event that will enable C-22 to quickly move forward to its assigned Standing Committee and the remainder of the legislative process that follows.

We recognize that there are multiple legislative priorities and approximately 10 sitting days left before the House of Commons adjourns for the summer break. However, people with disabilities waited almost a year for the legislation to be re-introduced after its predecessor bill died on the Order Paper when Parliament dissolved for the 2021 general election. Our community simply cannot wait as another season passes by, not knowing whether our federal representatives will deliver on their support for the dignity and financial security of all people living with disabilities in Canada.

We would appreciate the favour of your reply with all possible haste.

Sincerely,
