

What is Individualized Funding with CLBC?

When you receive CLBC funding, you have 2 choices: Global Funded Community Inclusion Programs and [Individualized Funding \(IF\)](#)

Global Funded Community Inclusion Programs

CLBC sends the money to a contracted agency and they run programs such as day activities, employment training, or hire support workers. The individual stays with that particular program/agency

PRO TIP

Does the task of handling Payroll, Revenue Canada, etc seem overwhelming and stopping you from considering IF? The [IFRC](#), a non-profit organization can handle all of that for you!

Individualized Funding (IF)

- With Individualized Funding, you can manage your support your way. You can hire staff yourself or work with a provider to help you hire and pay staff.
- You serve as the employer or a person who is hiring a contract employee – this is what is called Direct Funding.
- There are tax reporting and accounting for the funds responsibilities on your end
- You can alternatively choose Host Agency Funding. A Host Agency manages the money you get from CLBC for you and helps you set up and manage the supports you need.
